Colour Glazed brick solutions in a range of bright

COLOURS

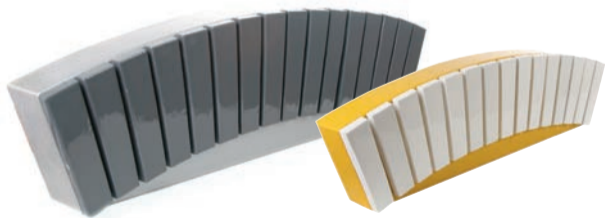

Are you looking for a bright clean and cost effective method for providing substantial areas of glazed masonry, if so look no further.

SPECIAL BRICKS

GLAZED ARCHITECTURAL MASONRY

GLAZED ARCHES

SALT GLAZED EFFECT

Colour Glaze is a spray applied coloured bonding coat which offers a uniform finish in a range of vivid colours. The finish can be either high gloss or satin and will give an eye catching usage for the lifetime of the building.

We can offer a wide range of colours in traditional brick size, 215mm x 65mm and also in imperial brick sizes. We can also match to the old salt glazed effect as shown below. Our range also includes glazed specials, arches and architectural features.

Colour glaze benefits

- Manufactured in the UK
- Beautiful finishes
- Stain resistant
